

SomaLife

# ProVit Xcell+ Omega-3

## Maximize Healthy Cell Regeneration

**New! Now with Omega-3**

## Elite Antioxidant, Multivitamin and Omega-3 Oil Supplement for Peak Performance and Protection.

**ProVit Xcell+** is an elite antioxidant, multivitamin and Omega-3 fish oil supplement for peak performance and protection. ProVit Xcell+ contains a full month's supply of SomaVit Plus, Super X and Omega-3 combined in individual packets for your convenience. To maximize healthy cell protection take 1 packet, twice daily before meals with a glass of water. To ensure maximum results stay properly hydrated.

**SomaVit Plus**, the ultimate natural vitamin/mineral free-ranging scavenger antioxidant system designed to seek and destroy free radicals throughout the body and work in conjunction with Super X for maximum protection as well as provide optimal vitamin and trace element needs. Refer to the book *Doctors' Secrets - The Road to Longevity*.

**Super X**, an optimized combination of powerful plant based antioxidants with Co-Q10, specifically designed to scavenge for free radicals and protect inside the cell and support enhanced cellular energy. Refer to the book *Doctors' Secrets - The Miracle of Antioxidants*.

**Omega-3 fish oil** has been shown to lower your blood pressure and reduce your risk of heart attack and stroke. It also has been shown to work much like pharmaceutical antidepressants which help improve your mood and has been used to treat serious conditions such as bipolar disorder and schizophrenia. Omega-3 fish oil can help aid in arthritis, memory loss, and dementia and has been demonstrated to slow the advancement of Alzheimer's.

# ProVit Xcell+ Omega-3 • Maximize Healthy Cell Regeneration.

## Why do our products produce such incredible results?

Unlike our competition SomaLife uses only the finest ingredients from the inside out, literally! ProVit Xcell+'s ingredients are "all natural and completely organic" and our state of the art nutritional supplement is encapsulated in an "all natural veggie cap" and an edible wax base for the vitamins and minerals. (this ensures fast and complete absorption, unlike most of the competition who use the standard 'gel cap' which does not break down nearly as easily in the body... meaning your vitamins and supplements may provide you with little to no benefit).

## ProVit Xcell+ is Non GMO

A GMO is a genetically modified organism (also called "genetically engineered"): a plant, animal, or microorganism that is created by means that overcome natural boundaries. Genetic engineering involves inserting genes from species that could not breed in nature. For example: genes from a cow that are placed in eggs or tomatoes. GMO foods could have risks for you, your family, and the environment! Do you want to eat pesticides or add more chemicals in your food? The answer for all of us is, NO! Just like you, SomaLife is concerned about the genetic modification of the foods and supplements that are available in the market

**Vitamin A**  
20 large raw carrots  
50 cups of spinach

**Vitamin C**  
14 large oranges  
14 cups of fresh strawberries  
8 whole cantaloupes  
45 cups of corn flakes

**Vitamin E**  
3 cups of sunflower seeds  
4 cups of almonds  
4 cups of olives

**B vitamins**  
25 to 30 slices of whole wheat bread

today. At SomaLife we are committed to you, your health and the future and are proud to say that we bring you only the purest Dietary Supplements available anywhere in the world.

## What are Antioxidants?

Antioxidants are a class of several organic and inorganic molecules, which are effective in helping to prevent heart disease, strokes and even cancer.

At the molecular and cellular level antioxidants serve to deactivate certain electronic particles called free radicals, which are the natural by-products of energy production in all of your cells. Free radicals are also created by exposure to various environmental factors such as tobacco smoke and pollution, all which lead to aging cells and ultimately an aging body.

## What is Oxygen Radical Absorbance Capacity (ORAC)?

ORAC is a widely used testing method, which measures the antioxidant activity or capability of a food ingredient; the higher the measurement, the better the ORAC value. With ProVit Xcell+ you can be sure you are receiving the highest, most nutritionally enriched combination of ingredients available anywhere in the world; just look at our statistics! To achieve equivalent results that a daily serving of ProVit Xcell+ provides, a person would have to consume the following foods each day:

## SUPPLEMENT FACTS SomaVit Plus

Serving Size 2 Capsules	Amount Per Serving 1272 mg	% Daily Value
Betacarotene (Pro-Vitamin A)	5,000 IU	600%
Vitamin C (Ascorbic Acid)	250 mg	1664%
